MAREHAM LE FEN COMMUNITY CENTRE

ENVIRONMENT POLICY

General

The Management Committee of the Mareham Le Fen Community Centre considers the protection of the environment to be of major importance. Environmental protection is perceived to be an integral part of efficient management in every sphere of the Community Centre's activities. High standards are to be applied by all those who work in or use the centre, or are in any other way operating under the auspices of the Community Centre, complying with legislation, codes of practice and official guidance relevant to environmental protection – in particular with the Environmental Protection Act 1990 and The Environment Act 1995

Environmental policy measures

The Community Centre will:

Awareness and Commitment

- promote awareness of the principles and objectives of environment protection
- ensure that the Mareham Le Fen Community Centre staff, volunteers and users are familiar with and implement this environmental commitment and its objectives
- ensure that the Community Centre and activities associated with it comply with all relevant environmental regulations

Energy and Water

- ensure energy is used efficiently and wherever possible reduce its use
- use water efficiently and with care
- avoid pollutants entering the drainage system

Waste

- reduce the production of material waste including unnecessary packaging
- encourage re-use, repair and recycling of materials including organic waste
- dispose of waste in a safe and responsible way

Materials and Resources

- buy products which are made in accordance with the principle of using material in a sustainable way and use locally-made goods where practicable
- take into account the lifetime costs of materials when repairing, altering or rebuilding premises
- maximise the proportion of paper used from sustainable sources and recycled materials
- offer electronic communication as an alternative to paper for those who are suitably equipped

Natural Environment

- take appropriate opportunities to conserve and enhance the natural environment surrounding the Community Centre
- be sensitive to the impact of activities on the local environment

Travel

- make every effort to reduce air pollution and energy consumption resulting from the use of the car by avoidance of unnecessary travel and the use of energy efficient vehicles
- encourage users of the Community Centre to travel on foot, by cycle or on public transport as much as possible
- encourage the sharing of transport where possible.

Implementation, monitoring and review

Implementation of the policy will be undertaken by the Community Centre Management Committee.

The policy and its implementation will be monitored and reviewed regularly, normally once per year.

A copy of the policy will be displayed on the Community Centre website.

All those hiring the Community Centre will be expected to confirm that they are aware of this policy and that their own activities and use of the centre are in conformity with it.
